Seguridad

- NUBUNTU http://www.nubuntu.org/
- Knoppix STD http://www.knoppix-std.org/

- LocalAreaSecurity 0.4 http://www.localareasecurity.com/
- Phlax (Profesional Hacker's Linux Assault Kit) 0.1 http://www.phlak.org/
- R.I.P. (Recovery Is Posible) Linux http://www.tux.org/pub/people/kent-robotti/looplinux/rip/
- WARLINUX 0.5 http://sourceforge.limpio/projects/warlinux/
- FIRE http://biatchux.dmzs.como/
- Penguin Sleuth Kit http://www.linux-forensics.com/downloads.html
- @stake Pocket Security Toolkit v3.0 http://www.atstake.com/research/tools/pst/
- ThePacketMaster Linux Security Server http://freshmeat.net/projects/tpmsecurityserver/
- Trinux http://trinux.sourceforge.net/
- http://www.securedvd.org/about.html DVD con varias distribuciones live-cd de seguridad
- Local Area Security Linux http://www.localareasecurity.com/
- Sentinix http://www.linux-forensics.com/
- Trinux http://trinux.sourceforge.net/
- @stake's Pocket Security Toolkit http://www.atstake.com/research/tools/pst/
- RIP Linux http://www.tux.org/pub/people/kent-robotti/looplinux/rip/
- ipcop
- mandrake security
- Security tools Distribution es un cd con multitud de herramientas http://www.knoppix-std.org/index.html
- LocalAreaSecurity 0.4 http://www.localareasecurity.com/
- Phlax (Profesional Hacker's Linux Assault Kit) 0.1 http://www.phlak.org/
- R.I.P. (Recovery Is Posible) Linux http://www.tux.org/pub/people/kent-robotti/looplinux/rip/
- WARLINUX 0.5 http://sourceforge.limpio/projects/warlinux/
- FIRE http://biatchux.dmzs.como/
- Penguin Sleuth Kit http://www.linux-forensics.com/downloads.html
- @stake Pocket Security Toolkit v3.0 http://www.atstake.com/research/tools/pst/
- ThePacketMaster Linux Security Server http://freshmeat.net/projects/tpmsecurityserver/
- Trinux http://trinux.sourceforge.net/
- http://www.securedvd.org/about.html
- http://xiaopan.co/

Auditoria WIFI

- backtrack http://www.remote-exploit.org/backtrack_download.html
- backbuntu http://www.blackbuntu.com/
- ophcrack
- wifislax

Auditoría/Pentest

- http://www.moser-informatik.ch/?page=products&lang=eng
- Arudius http://arudius.sourceforge.net/
- https://backbox.org/

Análisis Forense

- CAINE http://www.caine-live.net/
- DEFT http://www.deftlinux.net/

- SIFT http://digital-forensics.sans.org/community/downloads
- F.I.R.E. http://biatchux.dmzs.com/
- Inside Security Rescue Toolkit http://www.inside-security.de/insert_en.html
- Penguin Sleuth Bootable CD http://www.linux-forensics.com/
- LNX-BBC http://www.lnx-bbc.org/

Hacking

- Hakin9 Live http://www.haking.pl/en/index.php?page=hakin9_live
- Knoppix-STD http://www.knoppix-std.org/
- Professional Hackers Linux Assault Kit http://www.phlak.org/modules/news/

Antivirus

- LinuxDefender Live! http://www.bitdefender.com/bd/site/presscenter.php?menu_id=25&n_id=58

Firewall/router

- http://www.vyatta.org
- Devil-Linux http://www.devil-linux.org/home/index.php
- Floppyfw http://www.zelow.no/floppyfw/index.html
- IPCop Firewall http://www.ipcop.org/cgi-bin/twiki/view/IPCop/WebHome
- Linux Live CD Router http://www.wifi.com.ar/english/cdrouter.html
- Sentry Firewall CD http://www.linux-forensics.com/
- TRX Live Firewall http://www.trxlinux.org/download.html
- RedWall http://www.redwall-firewall.com/tiki-index.php
- NetBotz http://www.netboz.net/
- Coyote Linux http://www.coyotelinux.com/
- M0n0wall http://www.m0n0.ch/wall/
- ZeroShell
- MNF (MandrakeNetwork Firewall)

Distribuciones ligeras

Permiten ejecutarse en hardware menos potente

- Puppy linux http://puppylinux.org
- Majaro Linux http://manjaro.org/
- Lubuntu http://distro.ibiblio.org/tinycorelinux/
- crunchbang http://crunchbang.org/
- Tiny Core http://distro.ibiblio.org/tinycorelinux/

USB

- Trinux

VoIP

- http://www.freepbx.org/
- http://www.elastix.org/
- http://www.asterisk.org/downloads/asterisknow
- http://www.bicomsystems.com/products/pbxware
- http://alpinelinux.org/
- http://www.digantel.org/
