

Conectar cluster fortigate con switch fortigates usando MCLAG

MC-LAG ó Multi-Chassis Link Aggregation Group

dos cortafuegos en HA conectados a dos fortiswitch

Conexiones

- Habilitamos la configuración de los switch desde el fortigate

```
config system global
  set switch-controller enable
end
```

- Creamos el interfaz de tipo agregado

```
config system interface
  edit fortilink
    set vdom root
    set type aggregate
    set members port13 port14
    set fortilink enable
    set auto-auth-extension-device enable
  next
end
```

Configuramos MCLAG en el switch 2
