

Los puertos se pueden dividir en tres rangos:

- Puertos bien conocidos: 0 - 1023.
- Puertos registrados: 1024 - 49151.
- Puertos dinámicos o privados: 49152- 65535

## Listado de puertos

| Service Name                                                 | UDP | TCP      |
|--------------------------------------------------------------|-----|----------|
| Browsing datagram responses of NetBIOS over TCP/IP           | 138 |          |
| Browsing requests of NetBIOS over TCP/IP                     | 137 |          |
| Client/Server Communication                                  |     | 135      |
| Common Internet File System (CIFS)                           | 445 | 139, 445 |
| Content Replication Service                                  |     | 560      |
| Cybercash Administration                                     |     | 8001     |
| Cybercash Coin Gateway                                       |     | 8002     |
| Cybercash Credit Gateway                                     |     | 8000     |
| DCOM (SCM uses udp/tcp to dynamically assign ports for DCOM) | 135 | 135      |
| DHCP client                                                  |     | 67       |
| DHCP server                                                  |     | 68       |
| DHCP Manager                                                 |     | 135      |
| DNS Administration                                           |     | 139      |
| DNS client to server lookup (varies)                         | 53  | 53       |
| Exchange Server 5.0                                          |     |          |
| Client Server Communication                                  |     | 135      |
| Exchange Administrator                                       |     | 135      |
| IMAP                                                         |     | 143      |
| IMAP (SSL)                                                   |     | 993      |
| LDAP                                                         |     | 389      |
| LDAP (SSL)                                                   |     | 636      |
| MTA - X.400 over TCP/IP                                      |     | 102      |
| POP3                                                         |     | 110      |
| POP3 (SSL)                                                   |     | 995      |
| RPC                                                          |     | 135      |
| SMTP                                                         |     | 25       |
| NNTP                                                         |     | 119      |
| NNTP (SSL)                                                   |     | 563      |
| File shares name lookup                                      | 137 |          |
| File shares session                                          |     | 139      |
| FTP                                                          |     | 21       |
| FTP-data                                                     |     | 20       |
| HTTP                                                         |     | 80       |
| HTTP-Secure Sockets Layer (SSL)                              |     | 443      |
| Internet Information Services (IIS)                          |     | 80       |
| IMAP                                                         |     | 143      |
| IMAP (SSL)                                                   |     | 993      |

| Service Name                                                                     | UDP      | TCP        |
|----------------------------------------------------------------------------------|----------|------------|
| IKE (For more information, see Table C.4)                                        | 500      |            |
| IPSec Authentication Header (AH) (For more information, see Table C.4)           |          |            |
| IPSec Encapsulation Security Payload (ESP) (For more information, see Table C.4) |          |            |
| IRC                                                                              |          | 531        |
| ISPMOD (SBS 2nd tier DNS registration wizard)                                    |          | 1234       |
| Kerberos de-multiplexer                                                          |          | 2053       |
| Kerberos klogin                                                                  |          | 543        |
| Kerberos kpasswd (v5)                                                            | 464      | 464        |
| Kerberos krb5                                                                    | 88       | 88         |
| Kerberos kshell                                                                  |          | 544        |
