

[zabbix,snmp](#)

Monitorizar un Host por SNMP

Entramos en el frontal Web de Zabbix → Menu configuration → Hosts

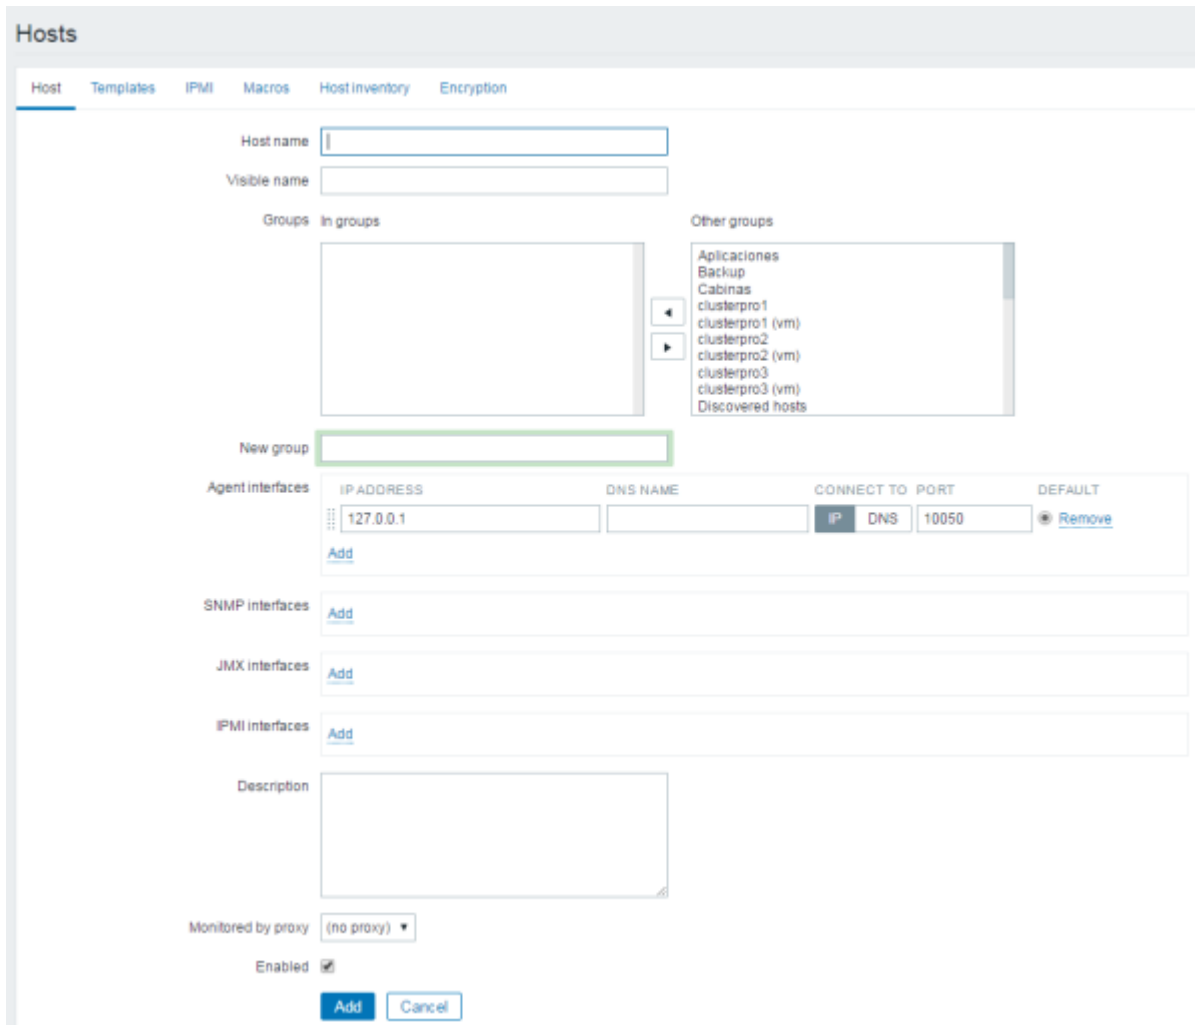

Pulsamos en el botón de la esquina superior derecha **Create host**

En el campo host name ponemos en nombre que queremos darle al host

En la casilla groups seleccionamos o creamos el grupo donde queremos encuadrarlo.

Como sólo vamos a monitorizarlo por snmp . Pinchamos en remove del **agent interfaces** y pulsamos en add de **SNMP interfaces**

En nuestro caso quedaría de la siguiente forma

The screenshot shows the Zabbix host configuration page. At the top, there are tabs for Host, Templates, IPMI, Macros, Host inventory, and Encryption. The 'Host' tab is active. The form includes the following fields and sections:

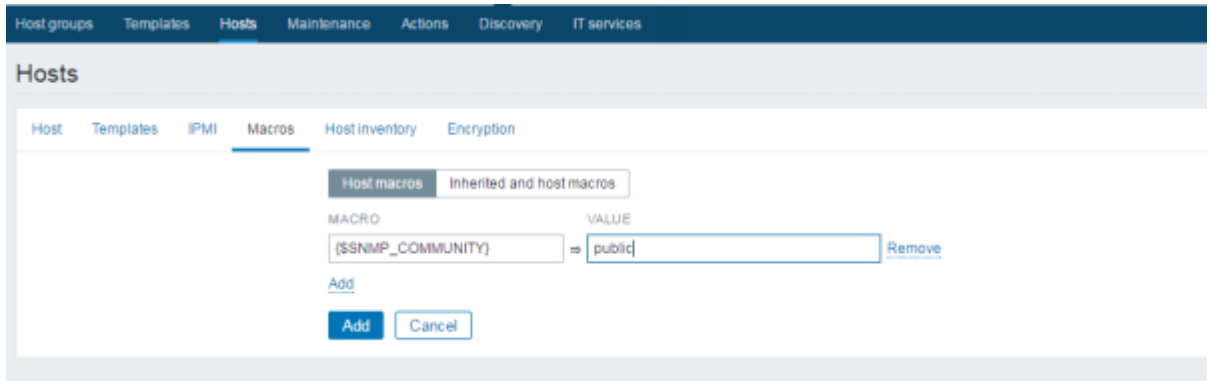

- Host name:** Servidor
- Visible name:** (empty)
- Groups:** A list of groups is shown, with 'Servidores Windows' selected. To the right, there is a list of 'Other groups' including: SAI, Servidores Linux, Servidores Vcenter, Servidores Web, Switch, Templates, Tomcat, Virtual machines, VoIP, and Zabbix servers.
- New group:** (empty)
- Agent interfaces:** A table with columns for IP ADDRESS, DNS NAME, CONNECT TO, and PORT DEFAULT. An 'Add' button is below.
- SNMP interfaces:** A table with columns for IP ADDRESS, DNS NAME, and PORT. The first row contains '192.168.1.200', 'IP', 'DNS', and '161'. There is a 'Remove' button and a checkbox for 'Use bulk requests'. An 'Add' button is below.
- JMX interfaces:** An 'Add' button.
- IPMI interfaces:** An 'Add' button.
- Description:** A text area.
- Monitored by proxy:** (no proxy) dropdown.
- Enabled:**
- Buttons:** Add, Cancel

Elegimos una plantilla para nuestro host

The screenshot shows the Zabbix Hosts page. At the top, there are tabs for Host groups, Templates, Hosts, Maintenance, Actions, Discovery, and IT services. The 'Hosts' tab is active. The page title is 'Hosts'. Below the title, there are tabs for Host, Templates, IPMI, Macros, Host inventory, and Encryption. The 'Templates' tab is active. The form includes the following fields and sections:

- Linked templates:** A table with columns for NAME and ACTION.
- Link new templates:** A search box containing 'Template OS Windows' and a 'Select' button. Below the search box is a text input with the placeholder 'type here to search' and an 'Add' button.
- Buttons:** Add, Cancel

En el caso de usar una comunidad de lectura distinta de la de por defecto, la definimos en la pestaña

de Macros
